- 25X1X 1. The attached table shows the total production in the Soviet zone of Germany, exclusive of Soviet AGs, for the month of July for the principal branches of industry. The figures in column 3 refer to production in factories of the Industrievereinigungen under direct control of the DWK, while column 4 gives the production in publicly owned enterprises below the zonal level.
2. The figures, with the exception of those for the food industry, do not include the processing of materials supplied (Lohnarbeit). The value for the processing of foodstuffs, included in the table, amounts to approximately 15 million marks.
3. The only slight increase in production over previous months is due in part to an intensified repair program carried out during the month of July.
